FOSTERING SELF-CONFIDENT LEADERS

OPPORTUNITIES TO EXPAND & EXCEL:

Adventure Leadership Program (ALPS)

Each year, students grades 6-12 participate in an outdoor or urban adventure through ALPS, to extend the academic classroom into the real world. Destinations include Washington D.C., New York City, the Ozark Mountains and Big Bend National Park. These trips help to develop individual leadership skills and challenge students to expand and strengthen their mental and physical identities.

Duke Talent Identification Program (TIP)

TIP identifies gifted children in grades 6-12 and provides them with opportunities and resources to support their development.

International Excursions

During the summer, The Westwood School organizes trips to Spain or China on a rotating basis. The Spain trip offers the ability to elect in coursework for humanities college credit, while the China trip engages students personally with students and families in various provinces.

Confucius Classroom Program

Created through a partnership with UT Dallas and Hanban (Confucius Institute Headquarters), Westwood has developed this program to provide Mandarin classes, "Ni Hao" summer camp, a Summer trip to China, a Confucius Library, Chinese Speech Competition and other cultural opportunities.
